

Fast CAT Entry Help

Some have had issues with the Fast CAT online entry program. It is a 2 step process. Select your runs and pay. Then go back in and enter your dog's information.

Start on the Home page of www.sugarloafmountainracing.com/#/ . READ THE INSTRUCTIONS, particularly the first paragraph. Then scroll down to KOTC Logo and click on Shop.

Then you will enter the number of dogs that will run in each run each day and add to cart. Notice the number of runs added to cart. Then click 'back' on browser to return to run selection page. Continue to enter number of dogs for each run you wish to enter each day.

When finished, Go to Cart and Check Out. Make your payment and submit. **Copy or write down your order number.** The email is automatically sent with the checkout information.

Follow the link in the email to enter each of your dog's information. You will need to complete the entry page for every dog entered.

At the bottom, you will need to clear your previous signature and re-enter it for subsequent dogs. Be sure to verify your dog's AKC number and information before submitting your entry.

You will not receive another email from Sugar Loaf Mountain Racing until a few days prior to the trial. Your run time will be in that message. BE SURE TO VERIFY ALL YOUR DOG'S AKC INFORMATION in the confirmation email to make sure your dog gets credit for the runs.
